Select #: NM0346263  
Representative MICHAEL PATRICK SHANNON

Would you feel and be more confident flying the Colorado Rocky Mountains if you learned from some of the most experienced mountain pilots in Colorado? Fall is a magnificent season to fly west into the "Crown Jewels" of our state. Of course, you need to be prepared and well trained to do so safely. One of the best pieces of advice for flying in our demanding high country is to talk to local pilots to learn the risks and best ways to fly in their "backyard". In this seminar, we'll be presenting to you the information we discovered by interviewing expert pilots from some of the most popular Colorado mountain destination airports.

**Directions:** The Ramada Inn is located immediately to the northeast of the Centennial Airport Control Tower. Seminar is being held in the Arapahoe Conference Room.

### **A message from the National FAASafety Team Manager**

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
